

# Project Design Phase-II

---

## Solution Requirements (Functional & Non-Functional)

Date: 18 June 2026

Team ID: 24EG105H29

Project Name: AuraCare – Smart Healthcare & Telemedicine Management System

Maximum Marks: 4 Marks

### Functional Requirements

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)               |
|--------|-------------------------------|--------------------------------------------------|
| FR-1   | User Registration             | Registration through Patient Registration Form   |
| FR-2   | User Authentication           | Secure Login using Email and Password            |
| FR-3   | Hospital Search               | Search Hospitals by Location, Specialty and Cost |
| FR-4   | Doctor Appointment Booking    | Select Doctor, Time Slot and Confirm Appointment |
| FR-5   | Telemedicine Consultation     | Join Video Consultation and Live Chat            |
| FR-6   | Prescription Management       | Generate, View and Download Prescriptions        |
| FR-7   | Health Locker                 | Upload and Manage Medical Reports                |
| FR-8   | Emergency Services            | Request Ambulance and Track Emergency Support    |
| FR-9   | Dashboard Management          | Patient and Doctor Dashboard Access              |

### Non-Functional Requirements

| NFR No. | Non-Functional Requirement | Description                                        |
|---------|----------------------------|----------------------------------------------------|
| NFR-1   | Usability                  | Easy-to-use and user-friendly healthcare interface |
| NFR-2   | Security                   | JWT Authentication and secure data storage         |
| NFR-3   | Reliability                | Consistent and accurate healthcare service         |

|       |              |                                                              |
|-------|--------------|--------------------------------------------------------------|
|       |              | operations                                                   |
| NFR-4 | Performance  | Fast response time for searches and bookings                 |
| NFR-5 | Availability | System available 24/7 for healthcare access                  |
| NFR-6 | Scalability  | Supports increasing users, hospitals and healthcare services |
