

User Acceptance Testing (UAT)

Date	18-06-2026
Team ID	24EG105H29
Project Name	AuraCare – Smart Healthcare & Telemedicine Management System
Maximum Marks	10

Project Overview

Project Name: AuraCare – Smart Healthcare & Telemedicine Management System

Project Description:

AuraCare is a MERN Stack-based healthcare management platform designed to connect patients, doctors, hospitals, and administrators through a single digital healthcare ecosystem. The system allows users to register, search hospitals and doctors, book appointments, attend video consultations, manage health records, receive prescriptions, and access emergency healthcare services. The platform improves healthcare accessibility and streamlines appointment and medical record management.

Project Version: 1.0

Testing Period: 17-06-2026 to 18-06-2026

Testing Scope

Features and Functionalities to be Tested

- User Registration and Login
- Hospital Search
- Doctor Search
- Appointment Booking
- Patient Dashboard
- Doctor Dashboard
- Hospital Dashboard
- Health Records Management

- Prescription Generation
- Video Consultation
- Emergency Help Module
- Authentication and Authorization

User Stories or Requirements to be Tested

- Patients can register and log in securely.
 - Patients can search doctors and hospitals.
 - Patients can book appointments.
 - Doctors can manage appointments and prescriptions.
 - Hospitals can manage patient records and doctors.
 - Users can attend video consultations.
 - Patients can access their health records.
-

Testing Environment

URL/Location: Local Development Environment (React + Node.js Application)

Credentials (if required):

- Patient Account
- Doctor Account
- Hospital Account
- Admin Account

Frontend: React.js, Tailwind CSS, Vite

Backend: Node.js, Express.js

Database: MongoDB

Browser: Google Chrome

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration	Step 1: Open Registration Page Step 2: Enter Valid Details Step 3: Click Register	User account should be created successfully	User account created successfully	Pass
TC-002	User Login	Step 1: Enter Credentials Step 2: Click Login	User should be logged in successfully	Login successful	Pass
TC-003	Doctor Search	Step 1: Open Search Page Step 2: Search Doctor	Relevant doctors should be displayed	Doctors displayed correctly	Pass
TC-004	Appointment Booking	Step 1: Select Doctor Step 2: Choose Date & Time Step 3: Confirm Appointment	Appointment should be booked	Appointment booked successfully	Pass
TC-005	Video Consultation	Step 1: Join Video Call Step 2: Start Consultation	Video consultation should begin	Video consultation started successfully	Pass
TC-006	Prescription Generation	Step 1: Open Patient Record Step 2: Generate Prescription	Prescription should be generated	Prescription generated successfully	Pass

Bug Tracking

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Minor UI alignment issue on dashboard page	Step 1: Login Step 2: Open Dashboard Step 3: Resize Browser Window	Low	Closed	Fixed and verified during testing

Notes

- Ensure that all test cases cover both positive and negative scenarios.
- Detailed feedback was collected during testing.
- Bug tracking included severity, status, and reproduction steps.
- No critical defects were found during testing.
- The project is ready for demonstration and deployment.
